

Gravity

executive desk

by Dymitr Malcew

Firm and comfortable, despite the gravity – Gravity takes the idea of the executive desk to a whole new level. Minimalistic form, inspired by modern architecture, has been integrated with technology. Large top situated on a single fulcrum and the invisible supporting structure brings into mind a floating surface, whereas electrically adjustable worktop allows ergonomic work and a smooth transition from sitting to standing position. The Gravity range also consists of: height adjustable conference table, coffee table, bookstand and modular storage system. This unique desk is a bold proposal addressed to modern leaders.
