

CUBE

Presents: THE CUBE

Shaped by innovation..

NAOMI
FITNESS DESIGN

www.naomifitnessdesign.com

Overview

- Designing a new, innovative functional fitness rig takes time and forward thinking. A great rig synergies the most essential aspects of functional fitness, while peppering in a healthy dose of accessories that significantly add to its performance.
- Following the above assumption, Naomi Fitness Design has created a fresh, bold design that not only engages your members, but also provides the benefits of space-saving technology. Recognizing that the real estate in your club is at a premium, Naomi Fitness Design has produced a cage that combines a juggernaut of features, while maximizing your overall workspace. We are proud to introduce THE BRIDGE.

Features & Benefits

- Fully modular system that adapts to the environment of the end user
- CUBE spans the entire functional fitness model with vast array of exercises from beginner through advanced
- Several pre-configured models available, to suit any spatial requirement
- Modular design to allow for virtually endless configurations
- Fully customizable with generous amount of accessories included, so that you can start your functional fitness experience right away, without further expenditures
